Individual Drawer Programming
Customize your inventory organization with safe Individual Drawer Programming. This gives the ability to program different permission levels and time delays for each individual drawer.

Specifications
The Rolland Drawer Management System incorporates a six-sided composite construction with a steel and ceramic matrix on all six sides of the safe. This unified construction achieves the highest degree of burglary protection in its class.

Drawer Control
Drawers are controlled by time, date, and person with audit capabilities that tell you who has accessed a drawer and when.

Capacity
Large capacity steel drawers hold up to 25 lbs per drawer.

Bolt Work
The massive 1.5" chrome plated bolts are secured with dual Underwriters Laboratories Group 2M combination locks.
Users
The programmable time-delay system allows electronically controlled access for up to 20 users.

Fire Protection
The safe has been factory tested and has achieved a 2-hour fire rating.

Advanced Locking Mechanism

Door Swing Projections

Drawer Interior Dimensions:

All drawers are 24.5" deep

Exterior Dimensions
57.5"H x 34.5 W x 36.5 D

Weight

Auditing
Records 4,000 actions on an advanced digital display. Manager codes allows up to 5 management users to access via 6 digit PIN numbers. 20 users have ability to open and close drawers through private PIN numbers.

Rapid Use Penalty
The Rapid Use Penalty (RUP) temporarily disables the safe when drawers are opened in rapid succession, as they would be during an armed robbery.

Time Lock
Time Lock is programmed around your hours of operation. This ensures that a closed store means a locked safe. The safe cannot be accessed outside of business hours.

Online Management - Coming Soon
The ability to manage your safe remotely from any location through internet access (IP Connectivity).
