Reliable.
Easy to Use.

- Place your registered finger on the optical reader and turn the safe handle. It's that easy.
- Can be set to open with fingerprint and/or code.
- Every lock undergoes a 2,000 cycle quality management program before it leaves the manufacturing facility.
- Unprecedented commitment to quality and reliability.

Pair with any lock type:

SwingBolt   DeadBolt   StrikeBolt   SpringBolt DeadBolt
