

CacheSystem 2400

Cash Security

- ✓ Collect and Secure Cash
- ✓ Count and Validate Funds
- ✓ Audit and Report Activity
- ✓ Control Remote Safes
- ✓ Communication Capability

Ideal for cash-intensive businesses. Provides cash security and greater employee accountability through an audit trail that connects each transaction to a registered user.

Option of single or bulk-note validator (Bulk-note shown)

Serial interface (Ethernet optional)

7³/₄"W x 9"D x 1¹/₂"H
Drop drawer

Secure inner rim holds door in place even if hinges are cut off in a safe attack

3/8 inch drill resistant steel plate.

Four anchor holes

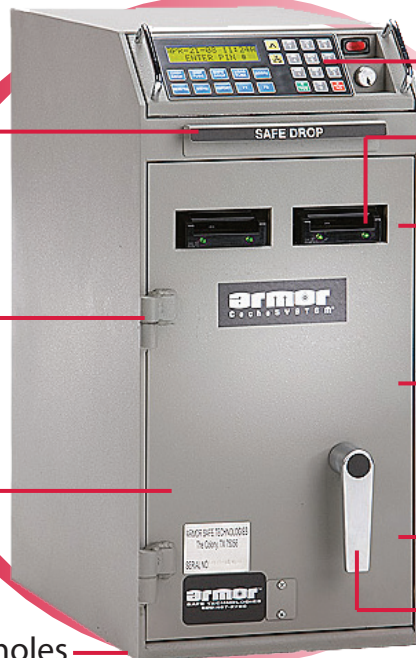

User-friendly, liquid-resistant keypad

Option of single or dual bill validator slots

Three 1-inch chrome plated locking bolts

Relocker fires emergency bolts when safe detects an attack

Safe automatically locks when door is closed

Reduce Risk of Robbery

Time delay ranging from 1-99 minutes forces an intermission of designated time between code entry and safe access, which deters robbery.

Reduce Internal Fraud

Each transaction is recorded and tracked through each user's personal identification number (PIN) so every employee is accountable for their transactions. There are 10 levels of programmable security to deter internal theft.

Reduce Counterfeit

Safes are equipped with casino-quality bill validators that provide the highest level of first-time bill acceptance and counterfeit detection.

Secure Transport and Deposit

After bills are counted they are secured in cassettes for easy and secure transport and deposit.

Easy and Fast Reporting

Deposit preparation is reduced from hours to minutes, error free. Safe can track up to 240 users and store up to 10,000 transactions. The high speed printer can produce more than 30 types of receipts including end-of day activity, cash withdrawal, and user reports.

Flexibility and Scalability

All CacheSystems can be connected to the 2400 Series within a distance of 4000 ft. All remote information is reconciled in the main unit.

Real-time Comparison

The 2400 series integrates effortlessly with CacheTALK III software, allowing the user to access and evaluate transaction data and provide real-time comparisons with POS activity.

Training and Support

Each CacheSystem includes a thorough user manual and a "Quick Reference Guide" to get you started. Individual or group training classes are available. Every customer receives free 24/7 phone support for the lifetime of their safe.

Warranty

Each CacheSystem purchase is accompanied by a standard one-year parts and labor warranty. Premium and extended warranties are also available.

Easy to upgrade and maintain

Locking or non-locking
1200-note cassettes

Lower Total Cost of Ownership.

Rolland CacheSystems are a series of parts instead of one single piece. This allows managers to upgrade one piece at a time instead of the whole. If a part needs to be replaced or serviced, it is easy to switch it on-site.

Single Note Validator Dimensions			Bulk-Note Validator Dimensions		
Width	Depth	Height	Width	Depth	Height
12"	20"	25¼"	12"	23"	25¼"
